

Peter Kulish

Peter Kulish began his research in bio-magnetic therapy over three and a half decades ago. Originally studying and consulting with the godfather of biomagnetism, Albert Roy Davis, he took an advanced degree from the Broeringmeyer BioMagnetic Institute in the 80's and has developed advanced energy medicine protocols that have supported healing in over 180 simple, acute and chronic conditions and disease. Through the years, he has consulted with doctors, scientists, and researchers from around the globe.

Kulish has lectured at cancer clinics, hospitals, medical colleges and universities throughout Asia. He is respected worldwide for his extensive research of Biomagnetism and pioneering the development of advanced therapies and protocols for prevention, wellness and resolution of pain, injury, illness, genetic problems, disease, and most medical conditions.

Extensively researched and used by the Asian Energy Medicine Association, his protocols are taught in curricula throughout Asia, where Energy Medicine is considered standard medical practice. His therapies are also used by individuals, care givers, practitioners, and in medical institutions and health spas throughout the world.

As a master healer with a wealth of research, application and development in the effects of magnetism on all aspects of the human body, he has been a featured guest speaker on biomagnetism at clinics, hospitals, medical colleges, universities and has been interviewed extensively on TV and radio, headlining many times on the “International Science Hour” and other health radio shows.

His new, more comprehensive second edition of *Conquering Pain* includes additional information, before and after medical research findings, and clinical case studies. It explains further how Biomagnetism works and provides new, advanced Biomagnetic therapy protocols, not in the former edition that have successfully helped heal optokinetic infant blindness, CFS, malabsorption, early-mid MS, fibromyalgia, lupus, post-stroke dysfunction, severed nerves (paraplegic walks again), 400% faster healing of crushed/splintered bones, individuals awakening and healing from terminating comas, and much more.
